Note For SAR:

Dear Team Members of "Some Assembly Required,"

Congratulations on your performance at the UAS STEM competition thus far. I hear great things, so keep up the good work! I can tell you that a career in STEM can be pretty amazing. The innovations you will help to develop in the future can both inspire and change the world. Keep pushing yourselves to be life-long learners who take on the toughest challenges, and be willing to put in the work required to come up with the amazing solutions that will keep us moving forward. Take care and best of luck in the competition!

Frank Rubio

And this is the message the team received during the competition from the International Space Station (written by NASA astronaut Frank Rubio), thanks to Lieutenant General Daniel Karbler (commander of the United States Army Space and Missile Defense Command)!
