

EAGLEBOTS

IF THE ROMANATOR IS IN TOWN,
THE EAGLEBOTS ARE GOING TO
“GET DOWN.”

TO ELIMINATE THE
COMPETITION,
WITH THE OAK GROVE ENGINEERING
VISION.

BY ROSA RODARTE AND ANDRES LUGO

GOING WHERE IT'S HARD TO GO

Humans will explore,
Planets, oceans, mountains, caves,
Adventures to go.

A place not for you,
Pipelines, fires, radiation,
Danger to your health.

Robotics helps us,
To create, explore, survive,
Tomorrow's visions.

By Jonathan Tran, Derek Casaca,
Chris Marin, Jerome Simon

TEAMWORK

DECISION MAKING,
IGNITES DELEGATING CHORES,
TO DELIVER PLANS.

FOR SOFTWARE DESIGN,
WRITING ROBOTIC PROGRAMS,
TRAVELING ROBOTS.

VISIONS BROUGHT ALIVE,
LINKING UNIVERSAL THOUGHTS,
FUN ACADEMICS.

BY EAGLEBOTS TEAM I AND II

Sparks

By Nicole Willis

Scraping metal,

Sparks flying around like stars.

Crunching noise...like thunder and
lightning pounding together.

Two pieces of metal being welded together
like two sails acting as one.

A child being made from the fire of life.

MY ROBOT

By Rosa Rodarte

My Robot is tall and strong

My Robot is very adventurous

My Robot loves to explore

My Robot wanders

My Robot is my best friend

My Robot

By Jonathan Tran

My Robot is talkative.

My Robot has six arms.

My Robot can play sports.

My Robot can run really fast.

**MY ROBOT
BY EDDIE MORALES**

**MY ROBOT IS BLACK.
MY ROBOT IS VERY NICE.
MY ROBOT IS MADE OF IRON
MY ROBOT IS VERY STRONG AND COOL
LOOKING!**

**MY ROBOT
BY JAVID AHMED**

My robot is black and strong like me.

My robot can run fast and talks to me.
