

## TEAM 192 2009 PROJECT PLAN

Adult: Bob Ekman

Team members	Bot 1 (CBC)	Bot 2 (Create)	Documentation	Notes
Stephen C	Terry S*	Stephen C	Dana R	We'll kick bot!
Terry S	Nick A	Alex O*	Katie D	
Dana R	Andrew B	Jesse S		
Nick A	Richard A	Joshua R		
Andrew B	Matthew S	Peter D		
Alex O	James K	Russel W		
Joshua R				
Peter D				
Russel W				
Matthew S				
Richard A				
James K				
Gurpreet (Jesse) S				
Katie D				

\* (Doc) stands for Documentation; this person contributes raw information to the Documentation Lead

### Availability Chart

Team members	Jobs	Wednesdays	Saturdays	Spring Break
Stephen C	Leader	OK	OK	Away
Terry S	Second-in-command	OK	OK	OK
Dana R	Documentation	OK	No afternoons	Away
Nick A	Building	OK	OK	OK
Andrew B	Coding	OK	OK	OK
Alex O	Planning	OK	OK	OK
Joshua R	Coding	OK	OK	OK
Peter D	Coding	OK	No afternoons	Away
Russel W	Planning	OK	No afternoons	Away
Matthew S	Building	OK	No afternoons	OK
Richard A	Coding/planning	OK	OK	OK
James K	Planning	Never	OK	OK
Gurpreet (Jesse) S	Coding	OK	OK	OK
Katie D	Testing/doc	OK	No mornings	OK

Week 1				
Goals	Responsible	Milestone	Status	Notes
<b>Build Game Board</b>	ALL	23-Feb-09	Complete	Completed and fully functional! Potential challenges include the windmills, water, poms, and Botguy.
<b>Learn Game Rules</b> (watch promo video)	ALL	23-Feb-09	Complete	
<b>Inventory Kit</b>		25-Feb-09	Complete	All parts accounted for. If we have any more rules questions, we will ask them.
<b>Check FAQ</b>	Dana	25-Feb-09	On-going	
<b>Initial Designs</b>	ALL	28-Feb-09	Complete	We came up with many good ideas, rejected a few, and we believe that our current designs will be easy to implement and successful.

Week 2				
Goals	Responsible	Milestone	Status	Notes
<b>Evaluate Progress</b>	ALL	4-Mar-09	On-going	We're off to a good start, but naturally have work to do.  Built a few prototypes of different possible attachments and a two different chassis models for the CBC. From these, we chose the best designs to construct.
<b>Begin Models</b>	Nick, Terry	4-Mar-09	Complete	

<b>Study Past Code</b>	Stephen, Andrew	4-Mar-09	Complete	Using techniques from past years - heavy reliance on sensors, and two different sets of codes: one for the seeding round, and one for the competition round. This year's models are bigger and better!
<b>Study Past Models</b>	Richard, Joshua	4-Mar-09	Complete	
<b>Begin Construction</b>				
Gathering Materials	Ryan, Russel	4-Mar-09		All necessary parts have been acquired.
Bot 1 construction (CBC)	Bot 1 team	7-Mar-09	On-going	Beginning construction on "wall" to trap poms which may be lined up on the 12" PVC.
Bot 2 construction (Create)	Bot 2 team	7-Mar-09	On-going	Begun attaching arm that extends out sidewise to collect Botguy and push cups up in a rushing strategy. We are continually updating the project plan and beginning our other writeups far in advance.
<b>Documentation</b>	Dana, Katie	1 to 7-Mar-09	On-going	

<b>Week 3</b>				
<b>Goals</b>	<b>Responsible</b>	<b>Milestone</b>	<b>Status</b>	<b>Notes</b>
<b>Evaluate Progress Construction</b>	ALL	11-Mar-09	On-going	We have come a long way these past two weeks but have even further to go.

Bot 1 construction (CBC)	Terry, Nick	11-Mar-09	Complete (now testing)	Our CBC features a claw for grabbing the blue balls and another attachment for the poms. This design, while complete, may undergo future modification.
Bot 2 construction (Create) <b>Programming</b>	Stephen, Alex	11-Mar-09	Complete (now testing)	Our Create will use a sweeping arm to capture Botguy and the turbines. We may come up with other uses for this arm during coding.
Setup C	Jesse	14-Mar-09	Complete	C set up! We toyed around with a few sample programs before beginning serious coding.
Bot 1 code	Richard, Andrew	14-Mar-09	On-going	Coding begun, but we have not yet tested our CBC on the board. Coding partially completed. We have begun testing the Create on the board.
Bot 2 code	Joshua, Peter, Stephen	14-Mar-09	On-going	Period one documentation is complete and submitted to BOPD. On to period two!
<b>Documentation</b>	Dana, Katie	14-Mar-09	On-going	

Week 4				
<b>Goals</b>	<b>Responsible</b>	<b>Milestone</b>	<b>Status</b>	<b>Notes</b>
<b>Evaluate Progress Construction</b>	ALL	18-Mar-09	On-going	

Bot 1 construction (CBC)	18-Mar-09
Bot 2 construction (Create)	18-Mar-09
<b>Programming</b>	
Bot 1 code (CBC)	21-Mar-09
Bot 2 code (Create)	21-Mar-09
<b>Integrating Bot 1 &amp; Bot 2</b>	
Mobility	21-Mar-09
Scoring	21-Mar-09
<b>Documentation</b>	16 to 21-Mar-09

Week 5				
Goals	Responsible	Milestone	Status	Notes
<b>Evaluate Progress</b>	ALL	25-Mar-09		
<b>Construction</b>				
Bot 1 construction (CBC)		25-Mar-09		
Bot 2 construction (Create)		25-Mar-09		
<b>Programming</b>				
Bot 1 code		28-Mar-09		
Bot 2 code		28-Mar-09		
<b>Integrating Bot 1 &amp; Bot 2</b>				
Mobility		28-Mar-09		
Scoring		28-Mar-09		
<b>Documentation</b>		28-Mar-09		

Week 6				
Goals	Responsible	Milestone	Status	Notes
<b>Evaluate Progress</b>	ALL	30-Mar-09		
<b>Programming</b>				
Bot 1 code		30-Mar-09		
Bot 2 code		30-Mar-09		
<b>Integrating Bot 1 &amp; Bot 2</b>				
Mobility		1-Apr-09		
Scoring		1-Apr-09		
<b>Testing</b>				
Bot 1 test		4-Apr-09		
Bot 2 test		4-Apr-09		

**Documentation**

4-Apr-09

Week 7				
Goals	Responsible	Milestone	Status	Notes
<b>Evaluate Progress</b>	ALL	8-Apr-09		
<b>Programming</b>				
Bot 1 code		8-Apr-09		
Bot 2 code		8-Apr-09		
<b>Integrating Bot 1 &amp; Bot 2</b>				
Mobility		11-Apr-09		
Scoring		11-Apr-09		
<b>Testing</b>				
Bot 1 test		11-Apr-09		
Bot 2 test		11-Apr-09		
<b>Documentation</b>		11-Apr-09		

Week 8				
Goals	Responsible	Milestone	Status	Notes
<b>Evaluate Progress</b>	ALL	13-Apr-09		
<b>Programming</b>				
Bot 1 code (CBC)		13-Apr-09		
Bot 2 code (Create)		13-Apr-09		
<b>Integrating Bot 1 &amp; Bot 2</b>				
mobility		15-Apr-09		
scoring		15-Apr-09		
<b>Testing</b>				
Bot 1 test		17-Apr-09		
Bot 2 test		17-Apr-09		
<b>Documentation</b>		15-Apr-09
