

Revised GCER game

See the list of changes below:

- There is a second Pickle Ball in the PCR Machine.
- A new multiplier for Botguy and Pickle Balls in an area.
- A new multiplier for cube stack height.
- The Pickle Ball counts as pink game piece now.
- Sorted multiplier is now x3 and x5 for Sorted and Both Sides Sorted respectively.
- Greater than 4 multiplier is now x4 instead of x3.
- Many game pieces score higher now. See the score sheet for details. Specifically cubes and tennis balls were increased.
- The top couplers of the sliding the door on the PCR machine have been moved down one inch.
- Small clarification to kit rules regarding bending of metal pieces
