

Post 1010 Rocketry Project

Lessons from TARC 2014

The Good

- All rockets were returned.
- Spill holes helped with oscillation.
- Dog barf helped with parachutes.
- TARC officials did well.

How do we keep it?

- Make two rockets.
- Saturday meetings.
- Walkersville site was better.
- Be the first to launch

The Bad

- Not enough members at launches.
- The weather in January and February.

How do we fix it?

- Improve designs.
- More launches.
- Prepare rockets.
- More work rooms.
- Pick and train leaders.
- Set up workshops.
- Walkie-talkie system.
- Go to 29mm motor mounts.
